

# **The Family Tree**

**Genealogy and History**

## **Preface**

In 2006 I volunteered to consolidate numerous related family histories into a single digital composition. In my first foray into genealogy, I was successful in correlating the history of nearly 4,500 individuals from 4 separate books into one seamless piece of genealogy. I soon came to realize the significance of what I was doing and it's importance to the many relatives who shared a genuine interest in our ancestors.

Since the initial task in 2006, my interest and curiosity has resulted in extensive research to build upon the history to date as well as coordinating with other genealogists to expand upon the lineage of our family ancestors. To date, there are over 14,800 individuals who are in one form or another related within our family tree. This book comprises only a partial summary of our entire family. Additional books and the entire genealogy and history of our family can be viewed online at [www.thefamilytree.net](http://www.thefamilytree.net)

This project was developed to actively share and build upon our family history. I encourage you to provide any information or knowledge you may have. Your help to establish and preserve the countless generations before us, paves the way for the education and enjoyment of the countless generations that will follow us.

## **Acknowledgement**

This project is dedicated to the countless individuals who have preceded me. Their effort and dedication to the discovery of our ancestors has been crucial to the development of this body of work.

Special thanks to Sister Rose Kordick and Sister Mary Dorothy Kordick for not only their tremendous commitment and research, but most importantly; for their confidence to entrust me with a project so dear to their hearts. Thank you Dennis Day for the extensive history of the Minnihan ancestry. Thank you to Marion Simmons for providing history on the Gerlitz side, and to my mother, Jeannette Jacquelyn Schmit, for her perseverance and enthusiasm in researching our direct ancestors.

Without the cooperation of everyone involved, we would not be able to enjoy the history before us.
